

Ido Carmi

NOC Engineer | Linux & Networking | DevSecOps | AI Automation

Ramat Gan, Israel | +972 54-9961435 | idocarmi011@gmail.com | LinkedIn | GitHub | Portfolio

Education

Ono Academic College | 2025 – Present

B.A. Business Administration & Information Systems

Bar-Ilan University | 2022 – 2023

DevSecOps Engineering & Linux LPIC-1 Certificate Program

- Worked with CI/CD pipelines, Jenkins, Docker, Terraform, AWS, Linux administration, and cybersecurity fundamentals.
- Final project included building and deploying a React and Express application using Jenkins automation and Terraform on AWS.

Kinneret Academic College | 2017 – 2019

Practical Engineer Diploma – Computer Systems & Communication Engineering

Professional Experience

Network Operations Center (NOC) Engineer | Pelephone | 2022 – 2026

- Monitored live network and infrastructure systems in a 24/7 NOC environment and escalated production incidents.
- Performed first-level troubleshooting across network, Linux, firewall, and infrastructure alerts using monitoring tools and multi-vendor technologies.

Military Service

Network Manager | Israeli Air Force | 2019 – 2021

- Operated and maintained classified military communication networks and infrastructure.
- Managed VoIP systems, fiber optics, communication rooms, and Cisco-based environments.
- Led and supervised a technical team of 15 soldiers.

Projects

AI-Powered DevSecOps CI/CD Pipeline | GitHub

- Built an AI-powered DevSecOps CI/CD project using React, Express.js, Docker, Jenkins, Terraform, AWS EC2 concepts, and an AI Incident Assistant for NOC/DevOps workflows.

Technical Skills

Networking: BGP, MPLS, VRF, VLANs, Routing, DNS, TCP/IP

Security & Infrastructure: Check Point, Fortinet, Palo Alto, Cisco, Juniper, F5

DevOps & Cloud: Git, GitHub, Jenkins, Docker, Terraform, AWS EC2, CI/CD

Systems & Automation: Linux, Windows Server, VMware, Python, AI/AIOps incident analysis

Languages

Hebrew — Native | English — Professional Working Proficiency
